Objectives

> To acquire a Full-time position with an opportunity for professional growth in an employee oriented organization through hard-work, utilizing the academic qualifications. And, to ensure the maximum contribution in the growth of organization with special emphasis on quality of service.

TECHINCAL EXPERTISE

Deep Concepts of OOP (Object Oriented Programming).
Good programming skills in ASP.NET Core (Microsoft Open Source), UWP, Azure.
Proven experience of client side programming, jQuery, JavaScript, Twitter Bootstrap.
Effective experience in PHP, Python, WordPress theme customization,
Fluent in using Visual Studio 2017 RC, NetBean, Gruntjs, Version Control (Git, GitHub)

EXPERIENCE AND PROJECTS

I am currently developing a **Facebook app using ASP.NET Core MVC which is Microsoft Open source technology**. The primary objective of this project is that by using this app, people can see the progress of their profile, like, etc. graphically

UWP (Universal Windows Platform) Nameday App
I had completed nameday app after finishing the course from pluralsight when I was doing my internship at Microsoft Innovation Center, Lahore, ASTP.
